Note:

This equipment has been tested and has been found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions. Operation of this equipment in a residential area is likely to cause harmful interference. In some cases, the user will be required to correct the interference at his own expense.

Trouble Shooting

| TROUBLE | ACTION |
|--|---|
| No power | Check and see if the power cable is connected properly. |
| No picture | Make sure that the equipment is connected properly. Check and see if the connected monitor is turned on |
| Stopped picture | Check to see that the video cable is connected. Check to see that the monitor is turned on. |
| The playback picture is poor | Clean the disc |
| No color | The color system of this unit does not match the color system of the monitor. Check the color system of the unit. |
| Distorted sound | Adjust the video system by pressing the TV system button. (PAL, NTSC) |
| The remote control doesn't work properly | Remove any obstacles between the remote control unit and the remote control sensor. Operate the remote control at a shorter distance. |
| "DISK ERROR" is display on the screen | Set the power button to OFF and then back to ON alternatively, Turn off the power, disconnect the power plug, and then reconnect it. |

Check point

When a disc is brought from a cold environment to a warm one, there may be moisture on the disc, or condensation will appear on the pickup lens. It will effect the playback.

1. Remove the disc from the DVD player.
2. Turn on the power and leave it on for an hour to vaporize the condensation.
3. You can operate the DVD player without any problem.

Caution

Please read and observe all warnings and instructions in this owner's manual and those marked on the unit. Retain this booklet for future reference.

There are two kinds of alarm symbols as follows:

WARNING

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

CAUTION

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING

The driver should never operate these products while the vehicle is in motion!

Installation of all TV monitors must be out of the driver's field of vision!

Do not try and service these products yourself, seek only a qualified service center or factory service center.

Be careful not to drop or apply undue pressure to the front panel of your video monitor. If the screen cracks due to misuse your warranty will be void!

Make sure to keep products away from heater ducts or vents and out of direct sunlight. Do not mount forward of the driver's shoulders.

Be careful not to overload your cigarette lighter plug by adding more than one device at a time.

Be careful with any liquids in your car. If you or your child spill any liquid on these products, park your vehicle at the roadside and turn the key off to disconnect or wipe the products with a towel. Do not operate the equipment until all liquids have evaporated or you have had the monitor inspected by a qualified Technician. Severe harm or death can occur!

Only use a wet cloth to clean the screen, only use purified water on the cloth, wring out all excess water before wiping the screen. Do not use any cleaners or chemicals to clean the screen. In most cases a dry cloth will do!

Do not mount the product where it will obstruct the deployment of the airbag or in an area where it would affect the vehicular control. Also be careful to avoid mounting the product where it can become hazardous during sudden stops or in the event of an accident.

Caution

Quality installations are best performed by qualified and certified installers.

Watching the monitor for an extended period of time without the engine running may deplete the vehicle's battery charge

This product is designed for operation with a 12 Volt DC, negative ground vehicle. It is not suitable for operation under other conditions or voltages.

Check Point

- 1 The operating temperature of this product is limited to $-4^{\circ}\text{ F}\sim+176^{\circ}\text{ F}$. Your vehicle can reach temperatures up to 212° F in the summertime.
- 2 If your vehicle is extremely hot or cold you must allow time for your air conditioner or heater too cool or heat the vehicle until operating temperatures have return to normal operating ranges.
- 3 Optimum picture quality will be achieved when viewed from directly front of the monitor (± 30 degrees).
- 4 Do not open the housing and attempt to make any repair yourself. Refer servicing to qualified personnel.
- 5 DVD Players use an invisible laser beam which can cause hazardous radiation exposure. Be sure to operate the unit correctly as instructed.
- 6 Do not cut the car power supply off while a disc is palying. It can cause damage to the DVD Player.

Cautions on Use
